

Butterfly Extra III

On-line wide format folder integrated with the HP Designjet T7200 high volume printer that allows fast and efficient finishing of your wide colour document ready for distribution.

Unique compact solution

Folder specifically designed and certified to operate on the HP Designjet T7200 as an integrated system. Within minimal space occupation it is possible to handle printing, folding and stacking operations.

Designed to support High Volume operations

Combined with DJ T7200 (3 rolls) Butterfly Extra III is extremely productive and precise with extra folded output capacity able to handle overnight activity. It folds any length from 0,42 to 5 metres (17"to 197") as desired in standard and any non standard sizes.

An innovative folder speed control system, synchronized with printer variable output speed, allows completing folding process at the same time as printing. Unfolded documents are properly stacked in the front.

A robust and reliable unit, built to last for intensive use without consumables.

A real unattended system with full control of workflow

Remote multi-users utility enables selection of a complete folding job from the printer interface. The advanced communication between printer and folder controls the system in case of error and automatically pauses the print process assuring job recovery.

HP Designjet SmartStream Increases productivity and offers print service providers:

- 1) Folding area preview, image rotation to correctly fold and select folding style
- 2) True PDF management: automatic detection of potential issues such as content in the printers margins
- 3) 50% reduction on job preparation time thanks to advanced options like smart cropping of white area
- 4) Total control across the printing workflow with accurate previews to ensure a correct folding

Features

Type

On line folder with speed synchronized to HP T7200 Plotters.

14 Fan Folding Styles

- DIN A: 190mm+20mm x 297mm
- DIN B: 190mm x 297mm
- DIN C: 210mm x 297mm
- 210mm x 305mm
- Inverse Din, AFNOR fan fold
- 7.5"x11"
- 7.5"+1"margin x11"
- 8.5"x11"
- 9x12"
- 8.5" fan fold
- 9" fan fold
- Bypass through: unfolded documents are deliver into compact tray
- 185mm x297mm
- 185mm+margin x297mm

Cross Folding Programs

Cross fold selections: 297, 300 or 305 mm; 11", 12"

Fan Folding Length

Paper size: Min. width: 297 mm -12" max: 920 mm - 36"
 Min. 3 laps max: 17- 20* Laps (* media weight 75 g/m²)

Folded Output Capacity

Capacity of 120 A1/D copies with detection bin full and automatic print queue pause or restart when emptied. Possibility to extend maximum capacity in case of need.

Unfolded Output Capacity

50 full size unfolded copies.

No-folded documents receiver:

A receiver placed between printer and folder allows collection of documents wider than 36" or printed on media not supported by the folder

Online solution:

Via **EWS** multiple remote users can benefit of the printer web interface where any user can simply set up the required finishing job.
